"A wise and frugal government, which shall restrain men from injuring one another, which shall leave them otherwise free . . . This is the sum of good government . . ."

"The majority, oppressing an individual, is guilty of a crime, abuses its strength, and by acting on the law of the strongest breaks up the foundations of society."

"Advertisements contain the only truths to be relied on in a newspaper."

Thomas Jefferson

The charges against me are a collection of nebulous, unsubstantiated falsehoods. Their vagueness makes a specific, directed response impossible.

As Commissioner, I have attempted to uphold the policies and the regulations of our Comprehensive Plan and our Land Development Regulations.

My focus on safety has revealed an inconvenient truth: our City has repeatedly contravened its policies and regulations.

This recall attempt is spearheaded by a politically motivated group of people, including some within this Administration, who are either unwilling to accept that truth or unwilling to make the changes required to bring our City back into compliance.

Anna Marians have a proud history of dealing with similar threats. I'm confident they will respond appropriately to this misguided effort to recall me.
